

SMALL PROJECT PAINTS

 **RUST-OLEUM**

Born of the Sea

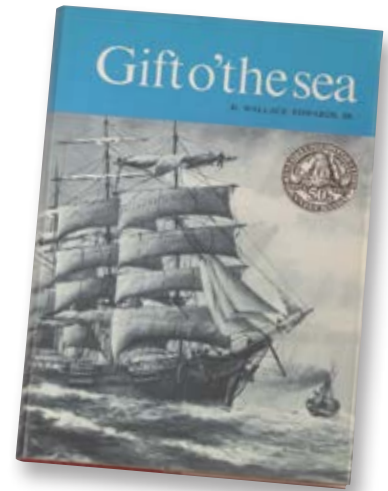

At the dawn of the 20th century, Robert Fergusson was a child from Scotland working as a cabin boy on one of the Queen's merchant vessels. As Robert worked his way through the maritime ranks to Captain, one of his duties entailed keeping the ship's brightwork shiny. Virtually anything metal needed Fergusson's constant hard work and supervision, lest the salty sea lay rust on Her Majesty's vessel.

Fergusson discovered that fish oil was the answer to combating rust, and worked feverishly on a galley stove to harness an oil that was both fast-drying and odorless. He tested a variety of his rust-preventive formulas on a fleet of 100 World War I ships and by 1921, Robert had finally discovered what he had searched for since his days as a cabin boy.

In 1932, Robert brought his business to Chicago where, while patching his kitchen floor with linoleum and contemplating names for his fish oil product, young Fergusson realized the Latin word for oil is "oleum". Preventing rust with oil is exactly what his product did, and Rust-Oleum was incorporated.

Born of the sea, Fergusson's best-selling Stops Rust® line established Rust-Oleum as the first American company to market spray paint. By 1957, Rust-Oleum was writing history from sea to outer space – NASA commissioned Rust-Oleum to develop heat-resistant coatings for their missile programs. Today, Rust-Oleum sells millions of cans of paint a year and protects American icons like the Golden Gate Bridge – as well as patio furniture from coast-to-coast.

After 100 years, Robert Fergusson's spirit of innovation and commitment to quality transcends every product bearing the Rust-Oleum name.

Gift o' the sea

is the early history of Rust-Oleum. Printed in 1971, it tells the story of Rust-Oleum's maritime roots and the company's rise to become a world leader in rust-preventive coatings.

 RUST-OLEUM

At Rust-Oleum, we take color seriously. Countless hours are spent each year ensuring we have the wide array of on-trend colors and finishes for each of our brands - each aimed at motivating and inspiring you.

• TRUSTED QUALITY SINCE 1921 •
RUST-OLEUM®

STOPPING RUST IS JUST THE START®...

Rust-Oleum continues to expand its vast selection of gloss, semi-gloss, flat, textured, satin, hammered, metallic and multicolor textured finishes. Whether the goal is to prevent rust, restore a worn-out surface or refresh furniture, Rust-Oleum provides a variety of paints and primers that protect and beautify.

With a 96% total awareness rating among consumers, Rust-Oleum® Stops Rust® is America's most trusted rust preventive paint.

TRUSTED LEADER

After 100 years, Rust-Oleum remains the leader in rust preventive coatings. It's no wonder why Stops Rust is the brand more consumers trust in the battle against rust.

SUPERIOR DURABILITY

Rust-Oleum Stops Rust expands and contracts under changing conditions, providing a tough finish that holds up under repeated stress with less peeling, cracking and chipping.

LASTING PROTECTION

Stops Rust delivers a durable, protective coating with excellent corrosion, chip and fade resistance for a long lasting finish.

PROTECTIVE ENAMEL

Provides lasting protection and beauty in a wide variety of colors and finishes.

Chalked
ultra matte paint 

**CHALKED ULTRA MATTE PAINT
CREATES A TIMELESS OR VINTAGE
LOOK THAT DRIES TO A VELVETY
SMOOTH FINISH.**

Chalked Ultra Matte paint provides one coat coverage on most surfaces with little to no prep or priming. Chalked paint can be distressed, adding an antique look. It can be used on wood, metal, ceramic, canvas and more.

BREATHE NEW LIFE INTO OLD FURNITURE

It transforms and rejuvenates furniture and home décor, creating a unique one-of-a-kind look. Use Chalked Protective Topcoat in place of traditional waxes for added durability and permanent protection.

EASY TO USE DIY SOLUTION

- Fast drying, one coat coverage on most surfaces.
- Low VOC/water-based for easy clean-up.
- Can be distressed for a unique chippy look using Chalked Decorative Glazes.

SPRAY AT ANY ANGLE

Perfect for hard to reach areas.

MILK PAINT FINISH

FOR DÉCOR & FURNITURE

SHOWN IN
HIGHLAND BLUE WITH NAVY DRY BRUSH

**MILK PAINT FINISH CREATES
A MATTE, BRUSHED EFFECT
THAT ENHANCES WOOD
GRAIN AND OTHER
SURFACE DETAILS.**

Milk Paint Finish brings new life to furniture and décor pieces while preserving an authentic antique feel. It is easy to use and has superior adhesion. It is easily layered in order to achieve the desired coverage; 1 coat will give a semi-transparent look and 2 coats will give a semi-opaque look.

- Easy application with minimal prep needed.
- Bonds easily to most surfaces.
- Brush-on formula is low VOC & water-based for simple clean-up.
- Recoating after 30 minutes; projects dry in 1 hour.
- Available in 6 on-trend colors.

MILK PAINT FINISH vs CHALKED PAINT – WHAT’S THE DIFFERENCE?

 <p>Milk Paint Finish gives surfaces a lightly textured brushed effect.</p>	<p>It provides custom coverage 1 Coat = Semi-Clear 2 Coat = Semi-Opaque</p>	<p>It highlights wood grain and other surface effects.</p>	<p>The paint color may change based on the darkness of the surface.</p>
 <p>Chalked Paint gives surfaces a velvety, smooth matte finish.</p>	<p>It provides superior coverage 1 Coat = Opaque.</p>	<p>It hides wood grain and other surface defects.</p>	<p>The paint color is unaffected by the surface’s original finish.</p>

CONCRETE INTERIOR WALL PAINT

Concrete Wall Paint makes ordinary walls look like textured concrete. The faux concrete paint delivers a semi-transparent matte finish that is great for accent walls or larger areas. Concrete Wall Paint can be applied with a standard 2-3" brush. Dries to the touch in 30 minutes.

- Use only on indoor walls.
- Basecoat with Zinsser® Bulls Eye primer first.
- Brush on using a cross-hatching motion.
- Apply additional coats to create more depth and dimension.
- For drywall only; not for use on concrete or brick walls.
- Not recommended for damp/humid rooms like basements or bathrooms.

INDUSTRIAL CHOICE® M1600 AND M1800 PRECISION LINE® INVERTED MARKING PAINT

For exact, easy-to-read markings. Ideal for utility construction, athletic fields, surveying, golf courses, construction sites, landscape marking and excavation sites. Use with Rust-Oleum Marking Wand. Available in Solvent-Based or Water-Based.

- Precision-line spray tip assures easy-to-read, bright, vivid markings with virtually no overspray.
- Clog-free, spray-through cap.
- “No mess” spray tip keeps fingers free of paint.
- Dries in less than 5 minutes.
- Solvent-based can be applied in temperatures as low as 25°F (-4°C).
- Water-based must be applied in temperatures above 40°F (4°C).
- Best resistance against premature fading.
- Ideal for marking concrete, pavement, grass, gravel and more.
