

MODERN MASTERS

 **RUST-OLEUM**

A Tradition of Quality & Innovation

The Modern Masters® story began in the early 1960s in California’s San Fernando Valley. Originally known as Custom Paint & Chemical, the company made coatings for furniture, decorative accessories, residential lighting and wall décor.

“You get what you pay for,” became the company’s mantra as producing the highest quality coatings was the primary mission.

Navigating a decline in the furniture industry, the company shifted focus, entered the fine artist materials market, and became Modern Masters Artist Acrylics in 1989. The acrylic paints were sold in clear containers offering consumers a close up look at the wide array of colors.

The company evolved further when the name was changed to CPC Modern Masters Inc. in 1996. Then, in August of 2000, it was sold to RPM Inc., a publicly traded holding company in Medina, Ohio. In 2017, Modern Masters joined the Rust-Oleum family of brands.

Modern Masters is one of the world’s leading makers of high-end, decorative and specialty paints. The products are available in more than 4,000 retail stores across the United States, Canada, Portugal, Spain, Germany, Sweden, France and other countries.

Product lines include the Metallic Paint Collection — non-tarnishing metallic paints, Metal Effects — an oxidizing decorative finish system, Architectural Textures, Theme Paints, Blacklight Paints, Glazes, Varnishes and Crackles, created for architects, designers, contractors, and decorative painters.

Modern Masters paints can be found on high profile properties around the world, including iconic amusement parks, government buildings, sports stadiums and a host of commercial properties.

Modern Masters is one of the world's leading suppliers of high-end specialty water-based paint products in metallic paints, oxidizing finishes, architectural textures, theme paints, blacklight paints, glazes, varnishes, crackles and theming products for architects, designers, DIY, contractors and decorative painters.

A TRUSTED LEADER

The products are currently available in thousands of retail stores and e-commerce sites globally.

Metallic Paint Collection™

SATIN PRE-MIXED METALLIC PAINT

The Metallic Paint Collection™ is formulated with shimmering, non-tarnishing particles that provide a high end look on a variety of surfaces. Available in satin colors, they are gorgeous on their own, or can be combined together to create unique tone-on-tone finishes. The smooth, easy application is perfect to brush on furniture or to roll onto an accent wall.

- Interior and Exterior formulas available, Interior can be used outside if top coated with MasterClear®
- Brush, Roller or Spray Applied (Add extender for rolling applications)
- Available in 6 fl oz, Quart and Gallon Sizes
- Water-Base
- Low VOC
- Intermixable
- Easy to Use

9" METALLIC PAINT ROLLER

This roller is specially designed for the application of the Metallic Paint Collection paints. The roller's unique, high-quality, European fabric and beveled ends work to create a uniform silk-like finish.

EXTENDER FOR ROLLING

When added to Metallic Paint Collection paints, it extends the open time or 'wet-edge' of the paint. This added open time allows for 'back-rolling' as a last step to properly orient the metallic particles and eliminate seams. Available in pint size.

MASTERCLEAR® PROTECTIVE CLEAR TOPCOAT

MasterClear interior/exterior is a water-based acrylic/polyurethane UV resistant clear topcoat that protects while maintaining shimmer on Satin Metallic Paint Collection colors.

SEA SPONGE ROLLER

This 6" natural sea sponge roller creates a simple and quick decorative finish.

Exterior Metallic Paint Collection™

EXTERIOR METALLIC PAINT COLLECTION™

Exterior Metallic Paint Collection™ is a rich, metallic finish that is water resistant and durable for exterior use. It's non-tarnishing and formulated with the same shimmering particles and ease of application as our regular Metallic Paint Collection. Available in 12 of the most popular metallic paint colors, they can be applied by brush, roller or spray equipment to exterior, architectural surfaces such as: window mullions, exterior paneling and other architectural features. Exterior Metallic Paint Collection is water, mold*, chemical, stain, mar, impact and UV resistant, so no additional protective top coat is needed.

- Easy to Use
- Durable Finish
- Colors Can Be Intermixed
- No Protective Clear Coat Needed
- Available in Quart and Gallon Sizes

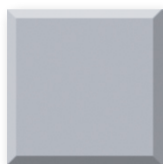

*This product contains mildewcide to prevent the growth of mold & mildew on the paint film only

METALLIC PAINT COLLECTION PRIMERS

Metallic Paint Collection Primer is an ideal primer and foundation color for Modern Masters Metallic Paint Collection metallic finishes. This acrylic primer promotes adhesion on smooth surfaces, dries fast and is sandable when dry. Use Cool Tone Primer under silver & pewter colors. Use Warm Tone Primer under gold & copper colors.

OXIDIZED METAL FINISHES

We combined the ancient art of patinization with modern day paint technology to formulate Metal Effects oxidizing paints, patinas and rust activator. These products create the distinctive and timeless look of bronze and copper patina or the weathered appearance of rusted iron in a matter of minutes, on any paintable surface.

- Easy to Use
- Interior/Exterior
- Brush or Roller Applied

METAL EFFECTS FINISHES

Blue Patina Finish

Green Patina Finish

Rusted Iron Finish

Easy 3 Step Process

*For Patina Finishes - apply 2nd coat of paint and spray on Aging Solution immediately. For Rusted Iron Finish - apply 2nd coat and allow to dry before applying Rust Activator. Rusted Iron Finish should be topcoated with Permacoat Xtreme on outside projects or high traffic interior areas.

Venetian Plaster

VENETIAN PLASTER

Venetian Plaster is a finishing technique using thin layers of plaster applied with a trowel and then burnished to create a smooth surface similar to marble. Modern Masters was the first USA manufacturer of acrylic Venetian Plaster, which has been used by professional applicators and do-it-yourselfers on thousands of projects across North America. Our unique chemistry allows for an unlimited palette of colors utilizing most water-based colorant systems. Choose a color from your favorite paint dealer's fan deck and have it tinted right in the store. Create an elegant ambiance in residences, offices, restaurants and hotels.

- Water-Base
- Trowel Applied
- Low VOC
- Available in Quart and Gallon Sizes
- Available in Tint and Ultra-Deep Tint Base

UNLIMITED COLOR OPTIONS WITH TINT BASES

Venetian Plaster bases are untinted so the color options are limitless. Simply choose a color from your favorite paint dealer's fan deck and have it tinted right in the store. Because Venetian Plaster is a polished plaster with translucency and depth, the color chosen will provide a variation of tones in the same "family" of color.

TINT BASE

This tintable acrylic plaster base is specially formulated to allow for creating light pastel to opaque mid-tone colors. Various looks can be created such as lightly polished marble or stone.

ULTRA DEEP TINT BASE

This tintable acrylic plaster can develop a beautiful, highly polished marble-like appearance. The more you polish, the more translucent the finish. This translucency creates the depth seen in real marble, and the beautiful finish is so smooth, it even feels like marble. Although it was originally intended for creating dark and ultra-deep colors, finishers prefer this base for light and mid-tone colors because of its translucency and ease of polishing.

PROTECTIVE CLEAR TOPCOAT

This trowel applied clear sealer is intended for use over Venetian Plaster finishes in high traffic areas where washability is imperative or for rooms that experience high humidity.

JAPANESE TROWEL

Produced in the same region as the famous Samurai swords, these trowels are made of 3 mm stainless steel which makes them extremely flexible and yet incredibly strong.

JWR Artist's Acrylics

JWR ARTIST'S ACRYLICS

100% acrylic binders for flexibility and durability, with concentrated, lightfast rated pigments for color longevity. Their creamy, easy to brush consistency allows for easy dilution in water for water color techniques and airbrushing. They dry to a flexible, water resistant, non-yellowing film with a consistent matte finish.

- Water-Base
- Available in Gallons
- Intermixable

Decorative Painter's Products

DECORATIVE PAINTER'S PRODUCTS

Decorative Painter's Products are a must for the professional and advanced do-it-yourself painter who wants to create beautiful finishes using extraordinary, professional-grade, water-base products. Typical decorative finishes include wall glazing/broken color, aged finishes, raised ornament and stenciling. Faux finishes imitate natural materials such as wood, marble, minerals (lapis lazuli, malachite, bone), leather, ivory, shagreen, etc.

- Water-Base
- Interior

PLATINUM SERIES COLORANTS

These water-base, high strength, precolored glazes are formulated for the utmost in controlled color strength. They have a smooth fluid consistency for decorative painting techniques and can be used to tint glazes.

TINTABLE GLAZE

This translucent and durable water-base glaze has a long "open-time" with optimum viscosity to control sagging on vertical surfaces. Tintable Glaze can be tinted with Platinum Series Colorants or Universal Colorants.

CRACKLE FOR LATEX PAINT

This clear, water-base medium creates a cracked paint finish with a "weathered" appearance. When applied, it causes the top paint layer to crack revealing glimpses of the base color. Can be used to crack our Venetian Plaster.

DEAD FLAT VARNISH

This water-base, acrylic, clear finish has the optimum clarity with the least amount of sheen. Use to remove variations in sheen on faux and decorative finishes. Available for interior, exterior, and low VOC versions.

TEXTURE EFFECTS

Prime, fill, smooth, texture and color! A versatile water-base, acrylic, tintable, plaster-like medium ideal for raised relief, dimensional stenciling, and heavy distressed textures. Can also be used to fill-in existing textures and correct wall imperfections.

JAPANESE TROWEL

Produced in the same region as the famous Samurai swords, these trowels are made of 3 mm stainless steel which makes them extremely flexible and yet incredibly strong.

SEA SPONGE ROLLER

This 6" natural sea sponge roller creates a simple and quick decorative finish.

FURNITURE & CABINETRY AND WALL GLAZING CREAMS

Our Glazing Creams are water-base, slow-drying, translucent glazes, formulated for maximum "working time" with excellent durability. Wall Glazing Creams can be tinted with Platinum Series Colorants.

GLASS BEAD GEL

This water-base transparent art gel medium has small glass beads that can be troweled or brushed on to various surfaces. It allows undertone colors from previous layers of paint and decorative finishes to reflect through the underlying finish and giving a crystal like appearance.

Theme Paint™

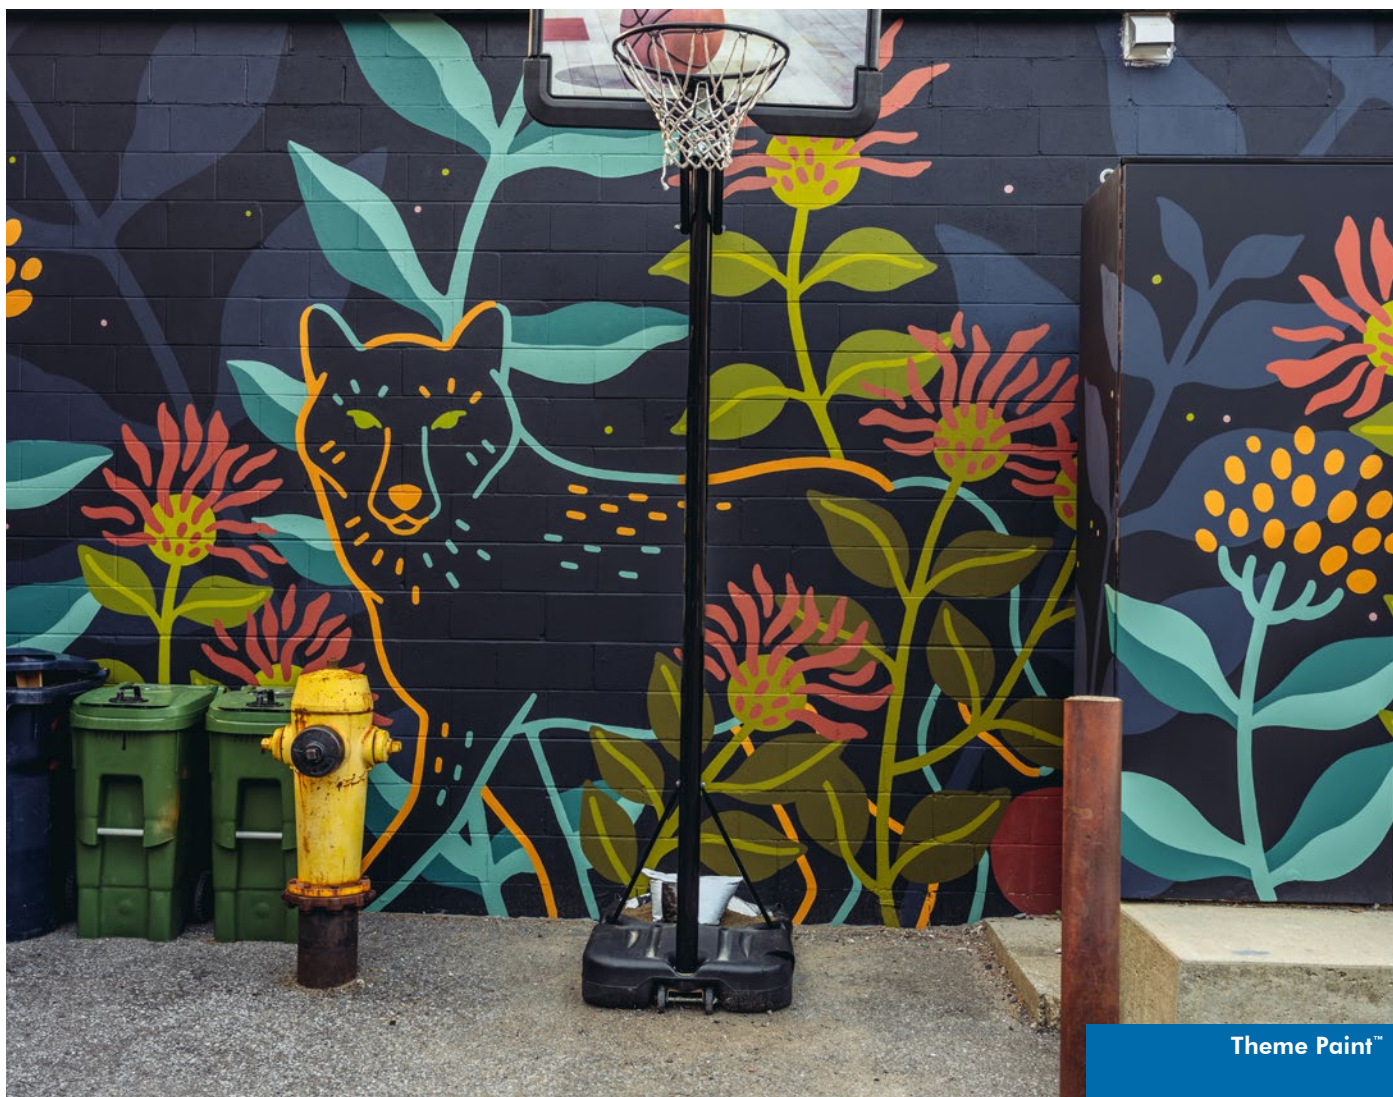

THEME PAINT™

Theme Paint™ is a specialized line of water-base, color saturated, exterior/interior flat, satin and semi-gloss paints. They are specifically formulated to resist the damaging effects of the sun's ultra-violet rays resulting in a highly fade resistant paint. Versatile application properties allow for specialty finishes from subtle color washes for rockwork to bold saturated colors for high visibility and impact.

Colorfast™ EX

COLORFAST™ EX

Modern Masters® Colorfast™ EX system consists of a two-component aliphatic acrylic polyurethane topcoat and a two-component epoxy primer. When used together as a coating system, it provides the ultimate in a high performance finish, achieving rich, vibrant colors with excellent color and gloss retention that's also easy to apply and is VOC compliant nationwide and has minimal HAPs (hazardous air pollutants).

- High Performance Coating System
- Ultra Smooth Finish with Excellent Color and Gloss Retention
- Apply by Either Spray, Brush or Roller
- VOC Compliant Nationwide

COLORFAST™ EX IS NOW TINTABLE WITH 844® COLORANTS

TINT BASES

Our two-component tint bases, when used together as a coating system, provide the ultimate in a high performance finish, achieving rich, vibrant colors with excellent color and gloss retention. Four sheens available: matte, satin, semi-gloss and gloss. Tintable using 844® colorants.

844® is a registered trademark of Chromaflo Technologies Corporation.

ACCELERATOR AND REDUCERS

When the weather or application conditions need to be managed, the Colorfast™ EX product line includes the following additives for easy manipulation of working time or cure rate: Accelerator and Reducers for clean up and spray applications.

POLYURETHANE TOP COAT ACTIVATOR

Colorfast™ EX Activator is a VOC compliant nationwide solvent catalyst for use with our Colorfast™ EX Aliphatic Acrylic Polyurethane tint bases. This catalyst is premeasured to activate a gallon of Colorfast™ EX Aliphatic Acrylic Polyurethane tint bases in the appropriate mix ratio.

PRIMERS

The Colorfast™ EX high performance, two-component, high solids epoxy primer is specifically designed for application directly to sound rusted steel, clean steel, galvanized metal, concrete, previously coated surfaces and slightly damp surfaces. This primer is VOC compliant nationwide and comes in either gray or white.

COLORFAST EX LEGACY SYSTEM IS TINTABLE WITH ITS OWN UNIQUE COLORANTS

COLORANTS

These zero VOC Colorants along with our Colorfast™ EX Clear Bases create a sought after super-compliant zero VOC system. The 14 fade-resistant colorants are ground in our proprietary resin system. They can be cross-linked on their own using our Activator or mixed with Colorfast™ zero VOC bases creating deep and vibrant colors with exceptional color retention and weathering properties.

CLEAR BASES

When cross-linked with our Activator, our two-component Clear Bases exhibit outstanding protection for previously painted surfaces in the harshest of environments. Mixing ratio is: 3 parts Clear to 1 part Activator. Total control of the application, open-time, and cure rate can be achieved by using our Accelerator, Brush & Roll Additive and Reducer. Premix in Silver also available.

PRIMERS

The Colorfast™ EX high performance, two-component, high solids epoxy primer is specifically designed for application directly to sound rusted steel, clean steel, galvanized metal, concrete, previously coated surfaces and slightly damp surfaces. This primer is VOC compliant nationwide and comes in either gray or white.

ACTIVATOR

Colorfast™ EX Activator is a zero VOC, exempt solvent catalyst for use only with the Colorfast™ EX system that is tintable with the Colorfast™ EX Colorants.

HIGH TEMP REDUCER

Reducer that is specially formulated for high temperature and low humidity environments.

Wildfire® Collection

WILDFIRE®

Wildfire® Ultra-violet technologies are used to create Luminescent Visible and Invisible Paints and Invisible Clear Colors. These coatings are color balanced and specifically formulated under UV blacklight for maximum brightness. Since 1989, industry professionals have relied on Wildfire products to create dramatic blacklight visual effects for film, television, theme parks, night clubs and entertainment venues.

- Water-Base
- Interior
- Intermixable
- Low VOC
- Brush, Roll or Spray Applied
- Available in 6 fl oz, Quart and Gallon Sizes

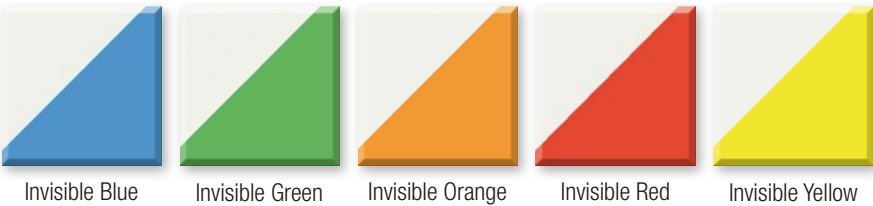

WILDFIRE COLORS

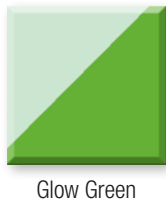

Visible Colors - Fluoresces brilliantly under black light

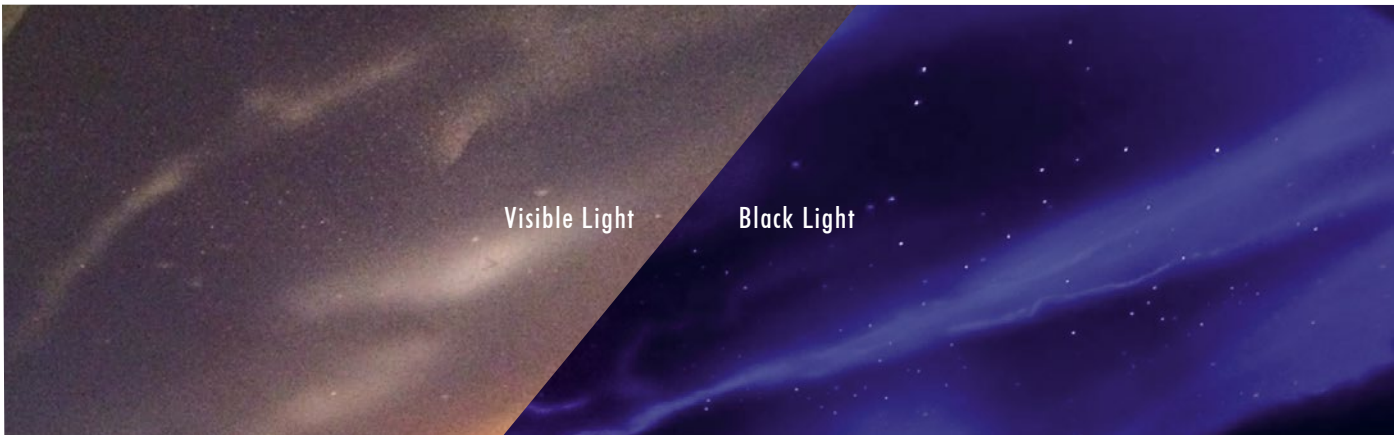

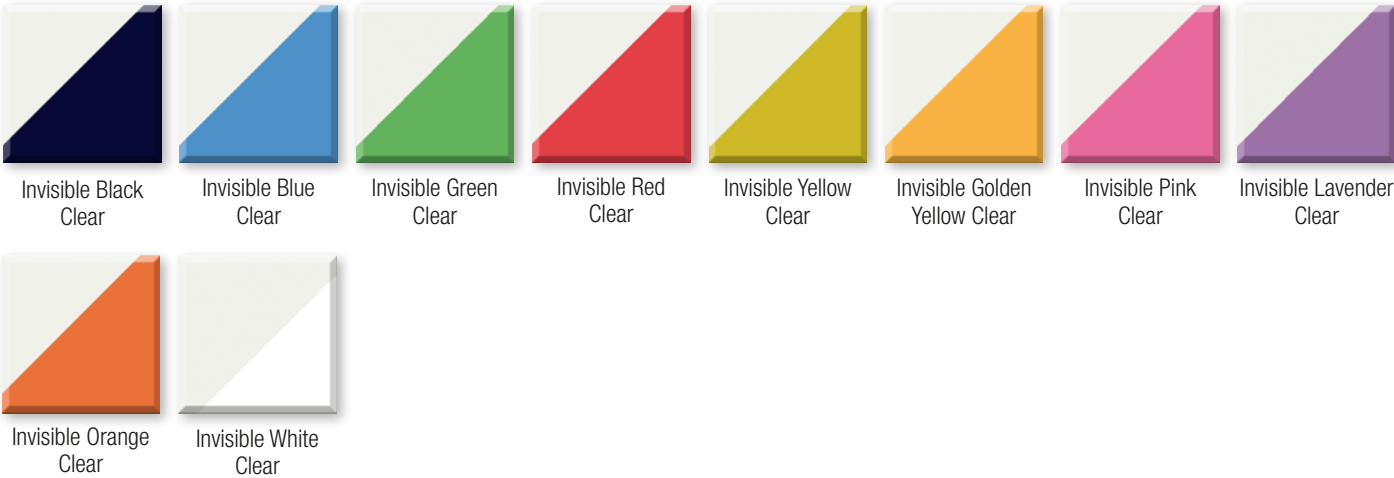

Invisible Colors - Dries white; Fluoresces color under black light

Phosphorescent Color - Glow Green in the dark

Invisible Clear Colors - Dries clear; Fluoresces color under black light

SHEEN LEVELER

For use over Invisible Clear Colors only. Images created with Invisible Clear Colors may be still detected in visible light due to variations in the sheen. To eliminate the variation in sheen apply Sheen Leveler over the painted image and the surrounding area.

REDUCER

Wildfire Paint Reducer is specifically formulated for use with all Wildfire Visible and Invisible Luminescent Paints allowing you to thin these paints without affecting their luminescent properties and without causing them to run or drip during application.
