UPC	020066 452438	020066 452421

# EASY STEP-BY-STEP INSTALLATION

FOUR SIMPLE STEPS TO ACHIEVE PROFESSIONAL RESULTS

## STEP ONE

### INSERT SPACER

Lay tiles and insert appropriate sized (1/16", 1/8", 3/16") Spacer.

**Note:** If using Universal Spacers, customize profile prior to inserting.

## STEP TWO

### PUSH CAP INTO PLACE

Slide Cap straight down over Spacer.

## STEP THREE

### APPLY TENSION WITH EVOLVER® TOOL

Slide the Evolver® Tool onto the Spacer and pull trigger to apply tension between the Cap and tile until the Cap is firmly holding tile. Tension is adjustable for various thicknesses of tile or stone.

**Let tiles fully set/cure** (per manufacturer setting material instructions).

## STEP FOUR

### REMOVE CAP & SPACER

**FLOORS** Spacer can be kicked (parallel to the Spacer) to break off. On softer natural stones and tiles use Evolver® Tool only to remove Cap and Spacer as explained below for walls.

**WALLS** Adjust Evolver® Tool tension knob counter clockwise to maximum tension. Place Evolver® Tool back on Spacer and pull trigger until the Spacer breaks off.

## ACCESSORIES

## MIRA BRUSH APPLICATOR & TRAY

### DESIGNED FOR USE WITH MIRACLE SEALANTS PRODUCTS

The Mira Brush is a unique hand applicator designed for use with Miracle Sealants products. A foam reservoir disperses solution evenly onto the surface. In addition, a convenient applicator tray is included.

SKU Number	APLTRAY8
UPC	753927 513718

## WHAT'S THE DIFFERENCE BETWEEN SOLVENT-BASED AND WATER-BASED?

Both are vehicles that take the protection (silicone and or polymers) into the substrate. Solvents have deeper penetration with denser materials, like polished granite and even porcelain tile, making it the ideal carrier for coverage and protection.

## ENHANCE NATURAL COLOR & SHINE

Protect and enhance in one easy, no hassle step. Use when deepened color and luster are desired for old or new textured surfaces like tumbled, sand blasted, cleft, flamed, split face, or honed surfaces (smooth but low or non-reflective), and even some polished surfaces. Miracle Sealants' sealing and enhancing products will enhance, protect and maintain the desired look for years to come. In addition, many products are designed to maintain the beauty of highly polished surfaces on a regular basis.

## DO YOU APPLY ENHANCERS FIRST?

511 Seal & Enhance is a sealer and color enhancer in one that can be used like any Miracle Sealants impregnator. Seal prior to grouting as a grout release. Seal after excess grout has been removed to protect your final look.

## WHAT SEALANTS DRAMATICALLY CHANGE THE LOOK?

A more porous surface, such as slate or sandstone, will give you a deeper, more dramatic look due to a higher absorption rate. Examples of Miracle products that will enhance your look include: 511 Seal & Enhance, Mira Matte, High-Gloss Finish Sealer or Matte Finish Sealer.

## CLEAN & MAINTAIN

All Miracle Sealants cleaning products are highly effective and safe for use on designated surfaces. Designed to work in conjunction with our protecting sealants/impregnators and enhancers, these products will maintain the integrity of your investment for years to come. The product offerings cover everything needed for day-to-day, week-to-week and as needed maintenance.

# FAQs ABOUT IMPREGNATORS & SEALERS

## WATER-BASED VS. SOLVENT-BASED & VOC COMPLIANCE

### **DUE TO TECHNOLOGICAL ADVANCES IN THE TILE AND STONE INDUSTRY, SEALING IS NOT ONLY ACCEPTED, BUT IN MANY CASES IT IS SPECIFIED.**

- Contractors typically use an impregnator/penetrating sealer as a grout release to save on labor. It is less costly to use a grout release than an acid wash.
- Surfaces that have been sealed with an impregnator/penetrating sealer clean up much faster and easier than those that haven't.

### **HOW DO SOLVENT-BASED AND WATER-BASED IMPREGNATORS WORK?**

- Only way to protect the substrate is to make sure it gets under the tile and stone surface.
- The protection can be silicone, silanes, siloxanes, fluoropolymer, etc.
- Solvent will allow typically deeper penetration into the substrate than water.
- Because of its micro-molecules, solvent-based products can allow a wider temperature window for application, better durability and typically are unaffected by exposure to cold during storage and transport.

### **WHAT CAN AN IMPREGNATOR/PENETRATING SEALER DO?**

- Resist many different elements such as water, acidic rain, mold & mildew, soap scum and other penetrating items.
- Makes the surface less slippery, more dense, allows water vapor transmission, and will not change the natural look of the surface.
- Creates a surface that's easier to clean and protect.

### **WHAT ARE THE CLASSES/CATEGORIES FOR VOC COMPLIANCE?**

Miracle Sealant's 511 Impregnator products are classified as an Architectural Coating, Sealer, or Finish, which fall under the South Coast Air Quality Management District's (SCAQMD) Architectural Coatings. Rule 1113. The VOC limits in Rule 1113 are some of the strictest limits regarding VOC emissions.

## **100% SATISFACTION GUARANTEE WARRANTY**

Rust-Oleum warrants all Miracle Sealants and Levolution products to be free of defects. In the event the product is proven defective, Rust-Oleum will replace the product free of charge, or at its option, refund the purchase price paid as evidenced by the purchaser's receipt.

## **511 SOLVENT BASED 20 YEAR WARRANTY**

511 Impregnator    511 Porous Plus    511 Seal & Enhance

Satisfaction guaranteed up to 20 years from the date of purchase to the original purchaser. If not completely satisfied with product performance, when used as directed, contact Rust-Oleum for product replacement or at its option, refund of the purchase price upon return of unused portion with the original dated receipt.

## **511 WATER BASED 10 YEAR WARRANTY**

Satisfaction guaranteed up to 10 years from the date of purchase to the original purchaser. If not completely satisfied with product performance, when used as directed, contact Rust-Oleum for product replacement or at its option, refund of the purchase price upon return of unused portion with the original dated receipt.

## **EXCLUSIONS**

1. Replacement costs for labor and installation materials such as tile, natural stone, grout, setting materials, under floor heating, electrical, plumbing and any other costs associated with the installation.
2. Improper installation.
3. Improper use of maintenance and household products.
4. Ordinary wear & tear.
5. Grout related issues including but not limited to staining, color variation, discoloration, cracking, chalking, mildew or mold.
6. Any item which might be expected to damage the product including but not limited to: abuse, negligence, falling objects, fire, earthquake, tornado or other natural disaster, exposure to extreme heat or accident.
7. Commercial use which constitutes store, office or other place of business.
8. Outdoor use.
9. Variations between field and trim; tile and stone.
10. Natural variations from design and color samples or photos.
11. Any color or shade variations, different markings, holes, pits, inclusions, veining, density and any element inherent to natural stone and tile surfaces.

## **PROCEDURE FOR MAKING A CLAIM**

The original purchaser must notify Rust-Oleum of the defect in writing within 30 days of discovery. Original purchaser must supply unused product and the original purchase receipt. Failure to produce documentation renders warranty null and void in its entirety.

No claim will be honored unless Rust-Oleum is given an opportunity to inspect the allegedly defective product. Failure to produce product for inspection renders the warranty null and void in its entirety. After inspection, Rust-Oleum will replace product or at its option, refund of the purchase price of the product.

Some states do not allow exclusion or limitation of incidental or consequential damages.
